Project Showcase & Poster Session

You are invited to share your work with other GIS professionals this April 23-27th at the 10th Biennial Mid-America GIS Symposium.

What you do is interesting because it involves GIS. Take a little time to present a poster or computer based exhibit for the benefit of others. Whether it’s a Technical, Analytical, or Conceptual theme - We want to hear from you!

For success we need YOUR contributions!

Please visit the web site for details and the online submission form, or contact Heisenbarth@raymore.com for more information.

Deadline for Poster Submissions: 3/17/2006
