11th Annual 2008 Oklahoma SCAUG Conference

SCAUG is a membership organization of GIS professionals using or associated with ESRI products. This regional user group serves members in Oklahoma, Texas, Louisiana, and Mississippi. This chapter is the fastest growing, and past conferences have drawn attendees from across the region. Last year’s conference was our largest ever held in Oklahoma; we had over 200 attendees and more then 25 vendors.

This year’s conference will feature training, informative sessions, poster exhibitions, and a vendor exhibit hall. The 2008 OKSCAUG Conference will draw the largest number of individuals involved in or interested in GIS in the State. The Oklahoma SCAUG Conference has been a mainstay in the Oklahoma GIS community every year! We’ve had 14 or more vendors the last three years, and this year we have room for 29 in the new Moore Norman Technology Center South Penn Campus Conference Center! Our main hall will hold 19 and the rotunda and central corridor will accommodate 10 additional booths. Register early in order to ensure your display will be in the main hall. Vendors will get an exceptional opportunity to meet with Oklahoma GIS professionals and key decision-makers. We’re continuing to attract as many participants and vendors to the SCAUG Regional Conference, so get your registration completed in advance to ensure your company will be represented at Oklahoma’s premier GIS conference!

Conference Attendees will be looking for innovative, cost-effective ways to implement GIS into their organizations.

Attendees will include GIS and senior level managers, analysts, developers and technicians from federal, tribal, state, regional and local governments as well as private industry.

Participants will be the people in Oklahoma that need your company’s products and services.

Join the Oklahoma Chapter of the South Central Arc User Group in Oklahoma City on September 30th to share your knowledge, services, products, and ideas with the state’s most receptive audience.
Vendor Application for Exhibit Space

Company/Organization Name: South Penn Campus Conference Center
Address: 1234 transitions Avenue, Moore, OK 73160
