VACANCY ANNOUNCEMENT
Position Open April 26TH, 2010 – June 30TH, 2010 or until filled

The Oklahoma Water Resources Board (OWRB) is seeking to hire a full time, permanent employee to work in the OWRB Information and Technology Services Division. The selected applicant will be responsible for maintaining and developing VB.net and ASP.net applications. Interested applicants should apply on the Oklahoma Office of Personnel Management’s state employment website www.ok.gov/opm/State Jobs. Applicants already in the state classified service should submit an OPM-4B to the Oklahoma Water Resources Board (Attn: Human Resources Department).

Pay Scale: $34,012 - $56,686 ► Pay is based on education, experience and availability but will be within the range listed above.

Anticipated Number of Vacancies: 1

Specific Location of Work: Oklahoma Water Resources Board
3800 North Classen Boulevard
Oklahoma City, OK 73118

Description of Work Duties:

The position involves performing various activities to support the OWRB’s Information and Technology Services Division. Examples of duties that will be performed include:

1. Maintaining existing Visual Basic applications
2. Meeting with end users to determine new application requirements
3. Writing requirements definition for new projects
4. Designing application database schema
5. Applying application requirements to development of forms for data input and editing
6. Designing and incorporating end-user reports that use variable, user specified query criteria
7. Testing and debugging application code

Additional duties include web server administration on Windows with emphasis on network and website security.

No overnight travel is required. A team player with good interpersonal and leadership skills and the ability to clearly communicate is highly desirable.

Experience with Visual Basic 2005 and ASP.net is required. Knowledge of Oracle, Crystal Reports, and ArcGIS is preferred but not required.

OWRB is an Equal Opportunity Employer
